

Why should I come to TLAC?

The Light Aircraft Company is run by pilots for pilots, it's engineers are also pilots so we are acutely aware of what you are looking for, we know you need the confidence that your aircraft is 100% reliable. We have only one level of service and that is premium, we use OEM parts and industry certified outsourced services.

The Light Aircraft Company is driven to provide outstanding operational and technical support to owners of GA aircraft, be they EASA Annex I and II or Permit.

Now with its approval as a CAMO, one of the first in East Anglia, aircraft operators can benefit from the wealth of experience and commitment with the sure knowledge that their aircraft is being kept airworthy by a dedicated professional team.

It has been proven time over that the most cost effective way to manage an aircraft is not to cut corners in order to shave costs but to maintain the aircraft to high standards and in doing so reaping the benefits of the highest standards of safety and reliability at cost effective prices.

History

Over 20 years ago a company was formed on Little Snoring airfield to provide maintenance for rotary and fixed wing aircraft, the company developed a reputation for providing high quality maintenance for Piper, Cessna, Socata, Enstrom and other single and twin engined aircraft up to 5.7 tonnes. In 2008 The Light Aircraft Company Ltd acquired the business along with it's maintenance facilities, systems and employee's, and in 2008 it increased the scope of it's approvals to become a CAMO and was awarded EASA Part M Subparts F,G and I, whilst still maintaining its original full M3 approvals.
